PULSE LAVAGE SYSTEM

- Pulse Lavage provides ease of use with ergonomic design
- The two-stage speed setting meets all special needs
- It is completely disposable

- Independent battery design provides ease of use
- The system has nozzle tip options for multiple hips and knees
- Liquid absorption and sterile liquid irrigation take place at the same time in pulse lavage

No:	Varyant	Marka	Referans No
1	REPULSE Pulse Lavage System	REPULSE	RP-0041
2	REPULSE Pulse Lavage System with Dual Spike	REPULSE	RP-0042
3	PAR Pulse Lavage System	PAR	PAR-0035
4	PAR Pulse Lavage System with Dual Spike	PAR	PAR-0036
5	ADITUS Pulse Lavage System	ADITUS	ADT-0025
6	ADITUS Pulse Lavage System with Dual Spike	ADITUS	ADT-0026

DIFFERENT TIPS FOR KNEE AND HIP ARE AVAILABLE

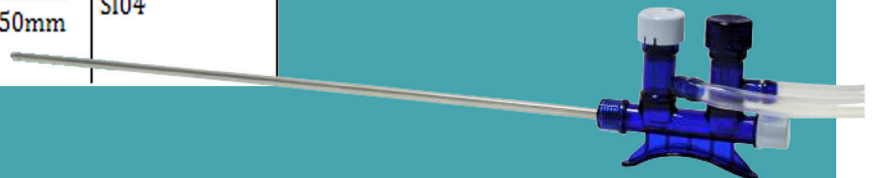

LAPAROSCOPIC SUCTION AND IRRIGATION SYSTEM

- *Dual function of irrigation and suction.*
- *Color-coded buttons with clear, ergonomic handpiece.*
- *8 vents at the probe tip ensures high flow of fluids.*
- *Soft, flexible and transparent tubing minimizes coiling and improves vision, control and safety during the operation.*
- *Single use.*
- *Side vents on standard probes allow for strong controlled lateral spray.*
